Any known pre-existing conditions have been disclosed to the Buyer prior to this sale and are noted in an attached addendum when applicable. Addendum Attached: Yes No (Buyer's Initials _____)

⊛ If a critical congenital or life-threatening medical issue is detected during the pup's initial veterinary examination which is clearly attributable to HHLS, HHLS will provide a replacement pup (if available) or a full refund of the purchase price to the Buyer upon return of the pup and all documents and care package items within three days of the diagnosis. If the Buyer decides to keep the pup, HHLS shall be released from any further liability and the Buyer shall be responsible for all veterinary bills incurred. Non-life-threatening issues shall be evaluated on a case-by-case basis and HHLS may offer to help pay for a portion of veterinary bills incurred because of the condition.

② HHLS guarantees this pup to be free from crippling hip dysplasia for the first 36 months following the pup's whelping date. The term "crippling" is described by the following conditions: painful hips, difficulty rising from lying down, swaggering gait, lameness of rear limbs, lameness after heavy exercise, reluctance to stand on hind limbs, reluctance to climb stairs, pain during manipulation of hips, decreased range of motion of hips.

The veterinarian must be a licensed DVM in the state where s/he is practicing and cannot be a family member of the Buyer, whether by blood or marriage. HHLS reserves the right to get a second opinion and will incur all related expenses. Should the second opinion not concur with the original diagnosis, a third veterinarian will be consulted and all related expenses will be split between HHLS and the Buyer. Once a diagnosis is verified/validated, the Buyer may receive a partial refund of the original purchase price of the dog or get a discounted pup from an unreserved litter. HHLS liability is limited to and shall never exceed the original purchase price of the dog. Maintenance should include an annual health exam, routine vaccinations, heartworm prevention and dental hygiene as recommended by a board-certified veterinarian.
